

The Best Seat in the House

NEW FOR 2010

THE ACTIVE COMFORT SYSTEM (ACS) SEAT

Introducing the new Active Comfort System or ACS seat! The ACS seat features a four-way adjustment system that is extremely intuitive. A few simple adjustments and you will find a custom fit that will allow you endless time on the water. The seat base is comprised of a tri-laminate. This advanced technology is the same construction that provides comfort and support in hi-end running shoes. Go ahead and take the best seat in the house...the ACS seat.

FEATURES

Four-way Adjustable Seat

1. Backrest height is adjustable to five positions.
2. Self-correcting dual pivot action conforms to your lower back.
3. Adjustable lumbar support.
4. Adjustable thigh support.

Advanced Technology

The ACS seat base is comprised of a tri-laminate (similar to a running shoe). This construction provides support where you need it and softness where you want it.

Comfort Cushion Seat Pad

"Fingers" on seating surface move with your body as you paddle, providing all-day comfort, breathability and drainage.

Grab Loops

Quick, easy "on-the-water" adjustments.

Cantilevered Thigh Support

Prevents edge of pad from digging into your leg.

Cup Holder

The ACS seat is available on the Dirigo and Cayuga Series kayaks.

Have a seat...and have some fun.
